ELSEVIER

European Journal of Operational Research 146 (2003) 661–663

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

www.elsevier.com/locate/dsw

Contents Volume 146

1 On the nucleolus of neighbor games
H. Hamers, F. Klijn, T. Solymosi, S. Tijs and D. Vermeulen

19 Minimization subproblems and heuristics for an applied clustering problem
E.G. Birgin, J.M. Martínez and D.P. Ronconi

35 A probabilistic solution-generator for simulation
M. Ozden and Y.-C. Ho

52 An infinite horizon inventory model with periodic order commitment
K.L. Cheung and X.-M. Yuan

67 Path comparisons for a priori and time-adaptive decisions in stochastic, time-varying networks
E. Miller-Hooks and H. Mahmassani

83 Air traffic knowledge management policy
B.N. Iordanova

101 The fuzzy estimators of fuzzy parameters based on fuzzy random variables
H.-C. Wu

115 Predicting information technology project escalation: A neural network approach
G.P. Zhang, M. Keil, A. Rai and J. Mann

130 Environmentally Responsible Manufacturing: The development and validation of a measurement model
S. Curkovic

156 Hospital lift system simulator: A performance evaluator–predictor
S.C.K. Chu, C.K.Y. Lin and S.S. Lam

181 Asynchronous transfer mode networks with parallel links and multiple service classes
K. Altinkemer and I. Bose

199 A multiple criteria decision-aid approach in defining national priorities for greenhouse gases emissions reduction in the energy sector
E. Georgopoulou, Y. Sarafidis, S. Mirasgedis, S. Zaimi and D.P. Lalas

216 Good buy? Delaying end-of-life purchases
K.D. Cattani and G.C. Souza

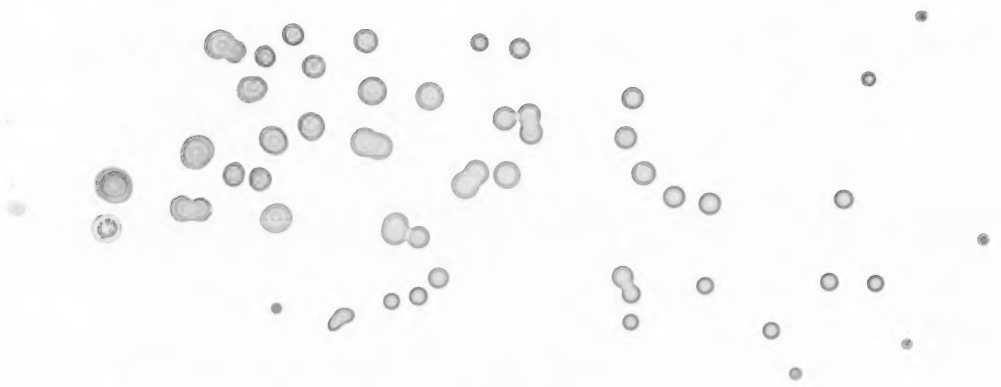
229 Enterprise resource planning—modeling and analysis
J. Sarkis

233 Enterprise resource planning: Developments and directions for operations management research
F.R. Jacobs and E. Bendoly

241 Enterprise resource planning: Implementation procedures and critical success factors
E.J. Umble, R.R. Haft and M.M. Umble

258 Pre-implementation attitudes and organizational readiness for implementing an Enterprise Resource Planning system
S. Abdinnour-Helm, M.L. Lengnick-Hall and C.A. Lengnick-Hall

PII: S0377-2217(02)00895-0

274 Issues in implementing ERP: A case study
P. Mandal and A. Gunasekaran
284 The impact of ERP on supply chain management: Exploratory findings from a European Delphi study
H.A. Akkermans, P. Bogerd, E. Yücesan and L.N. van Wassenhove
302 Enterprise resource planning: Managing the implementation process
V.A. Mabert, A. Soni and M.A. Venkataramanan
315 The impact of strategy and integration mechanisms on enterprise system value: Empirical evidence from manufacturing firms
T.M. Somers and K.G. Nelson
339 A multi-period optimization model for the procurement of component-based enterprise information technologies
R.P. Sundarraj and S. Talluri
352 Enterprise resource planning: A taxonomy of critical factors
M. Al-Mashari, A. Al-Mudimigh and M. Zairi
365 Enterprise resource planning survey of Swedish manufacturing firms
J. Olhager and E. Selldin
374 A strategic framework for the management of ERP enabled e-business change
C.G. Ash and J.M. Burn
388 One-dimensional cutting stock problem to minimize the number of different patterns
S. Umetani, M. Yagiura and T. Ibaraki
403 Algorithms for dynamic scheduling of unit execution time tasks
A.R. Díaz, A. Tchernykh and K.H. Ecker
417 Global optimization approaches to an aircraft routing problem
M.C. Bartholomew-Biggs, S.C. Parkhurst and S.P. Wilson
433 Sensitivity analysis by experimental design and metamodelling: Case study on simulation in national animal disease control
A. Vonk Noordegraaf, M. Nielen and J.P.C. Kleijnen
444 A heuristic for the continuous capacity and flow assignment
M. Queiroz and C. Humes Jr.
460 The multiple objective time transportation problem with additional restrictions
P. Singh and P.K. Saxena
477 Efficiency evaluation with strong ordinal input and output measures
J. Zhu
486 Flight test data cycle map optimisation
D. Panton, M. John, S. Lucas and A. Mason
498 Powerful heuristics to minimize makespan in fixed, 3-machine, assembly-type flowshop scheduling
X. Sun, K. Morizawa and H. Nagasawa
517 The bicriterion semi-obnoxious location (BSL) problem solved by an ϵ-approximation
A.J.V. Skriver and K.A. Andersen
529 A dynamic analysis of the single-item periodic stochastic inventory system with order capacity
G.H. Chan and Y. Song
543 Vendor evaluation with performance variability: A max–min approach
S. Talluri and R. Narasimhan
553 Computational issues in a stochastic finite horizon one product recovery inventory model
G.P. Kiesmüller and C.W. Scherer
580 The longitudinal effects of the ISO 9000 certification process on business performance
M. Terziovski, D. Power and A.S. Sohal


596 Hospital capacity management decisions: Emphasis on cost control and quality enhancement
L. Li and W.C. Benton
615 On aggregate Farrell efficiencies
R. Färe and V. Zelenyuk
621 Optimal new product positioning: A genetic algorithm approach
T.S. Gruca and B.R. Klemz
634 Impact of demand correlation on the value of and incentives for information sharing in a supply chain
S. Raghunathan
650 Explaining consumer choice through neural networks: The stacked generalization approach
M.Y. Hu and C. Tsoukalas
661 Contents Volume 146
